

Society For Vector Ecology

(INDIAN REGION)

(Registered No. 250/GOA/2017 under the Societies Registration Act, 1860)

The Society for Vector Ecology is a professional organization formed in 1968 by a group of individuals involved in vector biology and control programs in California. The membership has since grown to represent an amalgamation of diverse research and operational and extension personnel from all over the world. The Society is committed to solving many complex problems encountered in the field of vector biology and control. Among these are the suppression of nuisance organisms and disease vectors through integration of control elements, such as environmental management, biological control, public education, and appropriate chemical control technology. The Society publishes the biannual Journal of Vector Ecology that contains research and operational papers covering many phases of vector biology, ecology, and control. The Society also distributes a periodic newsletter and holds annual conferences and International Congresses. The Society has Brazilian, European and Asian Regions. A new SOVE Indian Region has been established with Dr Ashwani Kumar as Director and Headquarters at ICMR-National Institute of Malaria Research, Field Unit at Goa.

The details related to membership and members' rights have been mentioned hereunder.

MEMBERSHIP QUALIFICATIONS

There are five classes of membership in the Society for Vector Ecology: Regular, Retired, Student, Honorary, and Sustaining. The qualifications are as follows:

REGULAR MEMBERSHIP: Any person with an academic degree from an accredited college or university, plus two or more years of experience in the field of vector ecology or in related fields or with equivalent merits and experience may become a regular member. Education beyond the bachelor degree or equivalent may be substituted for experience. Regular members shall pay membership dues as set forth by the Executive Board/Body. Regular members are eligible to receive SOVE (Indian Region) publications, announcements about meetings/conferences and participate in the affairs of the SOVE (Indian Region) and vote on issues.

RETIRED MEMBERSHIP: Any individual involved in vector biology and control programs having attained retirement. Retired members pay one-half of the regular member dues and are entitled to the same privileges as regular members. Retired members will receive SOVE (Indian Region) publications, announcements about meetings/conferences and participate in the affairs of the SOVE (Indian Region) and vote on issues.

HONORARY MEMBERSHIP: An honorary membership may be conferred upon regular members who have long served in the field of vector ecology. Honorary membership shall pay no dues and are entitled to the same privileges as regular members.

SUSTAINING MEMBERSHIP: Any agency, organization or individual who desires to contribute financially to the purpose and objective of this Society may become a sustaining member by paying dues set by the Board. Names of sustaining members will be listed once a year in the newsletter and annual program of SOVE (Indian Region). Sustaining members have the same rights and privileges as regular members except they cannot vote or hold office.

STUDENT MEMBERSHIP: Any student enrolled full-time in a college or university is eligible to become a student member. Student members pay one-half of the regular member dues and are entitled to the same privileges as regular members, but cannot hold office. To qualify, the students must be certified by an advisor or department head each year.
